

GREAT MASS OF
MAIL HANDLED AT
LOCAL POSTOFFICE

Local Postal Force, Working Day and Night, Handled Christmas Mail Quickly—Over \$1800 Worth of Stamps Sold.

Mrs. Zorayda W. Cochran, local postmistress, made a most interesting report of the Christmas rush at the local postoffice for the two weeks before Christmas which shows the following:

593 Money Orders amounting to \$3,716.99 were issued.

2,307 parcels were insured.

Stamp sale amounted to \$1,700.

700 Special delivery letters and parcels were received and delivered.

There was no count kept of the thousands of packages and letters that were not insured but were received for dispatch and delivery as regular mail.

The local postal force is to be congratulated for the efficient manner in which the heavy work was handled during the Christmas season. Everything moved off without a hitch and there was little trouble or complaint on the delivery.

Special compliments are due Chris Hunsicker, the ever prompt messenger, for his special and extra hard work during the season in delivering mail to and from trains. Many days he was to work until far after midnight, but there was no accumulation of the postoffice of the depot. He believes there has ever been satisfactory handling of the mail at Christmas time at a postoffice.

MYSTERIOUS CAR
AT FT. THOMAS HAS
LOCAL LICENSE TAGS

License Plates Stolen From Prof. Turnipseed's Car Found on Mysterious Ford Now in Ft. Thomas Garage Unclaimed.

Sheriff C. M. Devore was advised by authorities at Ft. Thomas Saturday morning that a new Ford Sedan bearing license plates of the numbers assigned to Mason county, had been in a public garage in that city for several days and that no one having called for the machine, the garage men had reported it to the authorities suspecting that the car had been stolen.

Referring to the county records, the sheriff found that the plates on the car at Ft. Thomas had been assigned Prof. George H. Turnipseed, Superintendent of the Mason County Schools. The sheriff at once got in touch with Prof. Turnipseed, who has not seen his car for several days but who went immediately to his garage and found that the license plates on his car had been torn off.

Prof. Turnipseed's car had just been returned home from the Buick garage and an investigation was made there by the officers. They found from the garage men that on last Thursday a new Ford sedan in which three young men and a young woman, all of whom were suspicious looking characters were at the garage. They said they had come from Lexington and had been directed through Mayville en route to Louisville. This caused the garage men to suspect that the new car had been stolen. It is thought that while at the Buick garage, the young men stole the tags from Prof. Turnipseed's car and discarded the original tags on the machine.

These facts have been given the Ft. Thomas authorities by Sheriff Devore.

KIDNAPED CHILD IS
RETURNED TO PARENTS.

Detroit, Mich., Dec. 30.—Eight-year-old Mary Giovannangeli, kidnaped eight days ago and held for a ransom of \$20,000, was returned to her home this morning, less than 12 hours after her father, Nicola Giovannangeli, East Side banker, had reported her disappearance to the police.

The child's return was almost as daring as her seizure, more than a week ago. Despite a police guard stationed at her father's bank and home to block any attempted reprisals for his action in reporting the demand for ransom, she was brought to within half a block of her home. There a man helped her from an automobile and directed her to "hurry home, and don't be afraid of the dark." She had not been harmed, and informed her parents who had been taken to a farmhouse. She had been well cared for, and even feted on Christmas day, she said.

DROWNING THEORY CONFIRMED.

The theory that Mr. Fred Schnelle, local shoemaker, had drowned was practically confirmed late Friday afternoon when a bat identified as one he wore when last seen, was blown from the bottom of the Ohio River with dynamite near the old gas works. Thus far Mr. Schnelle's body has not been recovered but a search of the river continues. As there was an artificial rise in the river Thursday night, it is thought that the body has been carried down stream quite a distance.

PAYROLL ROBBERY.

Cleveland, Ohio, Dec. 30.—Armed men, this morning held up the paymaster of the Ferry Cap & Screw company, and escaped with the \$20,000 weekly payroll.

Robbers entered the office of the company with pistols drawn. The paymaster, just returned from a bank with the money, heavily guarded by an armed escort, was caught off his guard by the sudden raid.

MAYSVILLE BOY
SHOOTS SELF IN ATTEMPT AT SUICIDE

Fred Hays, Mayville Boy, on Visit to Sister in Augusta, Miss Rife into Abdomen—Little Chance for Recovery.

Fred Hays, well known Mayville boy, lies at the point of death at Hayswood hospital suffering from a rifle shot wound in the abdomen. Attending physicians say there is little chance for his recovery as the ball has pierced several entrals and the liver was struck.

The young man has for the past several weeks made his home with his sister, Mrs. Ida Case, at Augusta and while at his sister's home in the Brecken county town Friday evening at about 8 o'clock, he shot himself with a small .22-caliber rifle. At first it was thought that he had shot himself accidentally but at the hospital he told relatives and the physicians that he had planned to take his own life.

The cause for the rash act is assigned as worry over numerous troubles.

Although a native of Mayville, Hays had not been living here for several years but had resided in several of the larger cities.

Reports from his bedside at the hospital Saturday afternoon were to the effect that his condition was very critical and that his death might be expected at any time. Hays is about 25 years of age.

He was found to be unconscious in the building in which he has his office shortly after the shot is supposed to have been fired.

BIG RAID MADE ON
COAL HEAVERS IN LEWIS

C. & O. Detectives Arrest Fourteen at Concord for Coal Heaving, Which Is Said to Have Been Heavy.

C. & O. Detective H. M. Brown, of this city, returned home Friday night from Vanceburg where he had taken fourteen men and boys who had been arrested on Thursday at Concord by himself and Special C. & O. Officer Jos. Webb on charges of "coal heaving" and train riding.

Officer Brown reports that for several months there has been much complaint about the wholesale theft of coal at the Concord station and the two officers stationed themselves there with the intention of making an effort to break up the practice which had cost hundreds of dollars.

Among the fourteen arrested were three Mayville boys, Dale Bryant, 15, Willis Martin, aged 13, and Arnold Adkins, aged 13, all of whom were charged with train riding. They are now being held at Vanceburg.

Those arrested for coal heaving were Alvie Solister, Ansel Ward, Omer Kennedy, Wilbert Caseman, W. M. Burrows, Wm. Figgis, Geo. Henderson, Perry Dickson, Edw. Baker all of whom were fined \$10 and costs by Judge Stone of Vanceburg. Floyd and Fred Henderson, juveniles, were given a suspended reform school sentence.

YOUNG LAD DIES AT
HAYSWOOD HOSPITAL.

John William Ammer, ten-year-old son of Mr. and Mrs. John Ammer, of Minerva, was brought to Hayswood hospital Friday suffering from locked bowels. The boy died late Friday afternoon. The body was Saturday removed to the home of the parents at Minerva and funeral will be held Monday morning at 10 o'clock at St. James church. Burial will be made in the St. Patrick's cemetery at Washington.

"SMILE" THROUGH" IS

SCHOOL LESSON

VIEW.

H. RAYL.)

History comprises data of the preparation of the Saviour's work as well as the daily coöperation of the Saviour and the church in the third and thirdly coöperation of the church to expand and perfect the work.

First class of data belong to the history of John the Baptist, and boyhood and baptism of Jesus himself.

Narratives covering these matters not only teach of satisfying human interest in the human life of the Saviour, but also they help to the correct understanding and interpretation of His message, and His mission. They link Him with the world of men and all about Him. They show identification with mankind to be real and complete experience. They indicate that He became subject not only to the law in the technical sense attached to the term among the Jews, nor merely to the moral law as the expression of the will of His Father, but to the laws of nature as well. "It behooved Him," as the author of the Hebrews puts it, "in all things to be made like unto His brethren."

Historical and literary investigations of the last few years have greatly enlarged the knowledge of men regarding the preparation of the world for Christ. They have brought into view a vast array of facts of exactly the same type and meaning as the gospel narrative of the birth of John the Baptist and his ministry. John was a forerunner of Jesus. The language to be used by Jesus had been introduced among the Jews, the political conditions to confront him and constitute a part of His problem had been molded the world of thought to serve as the vehicle and auxiliary of His ideas had grown up in the years immediately preceding His coming, the knowledge of these matters helps men today to affiliate Jesus with His environment and therefore to understand Him all the better.

The gospel of Mary begins with a bare mention in a single sentence of this preparation. It illustrates what is indispensable to know of the Saviour. But the gospels of Matthew, Luke not only fill the gap left by Mark, but also add vastly, not too much, to our understanding of Christ by prefixing accounts of

His life before the beginning of His work.

Regarding the parts of the gospel story which portray the Saviour at work it is unnecessary to say anything more than that they show the universality of His interest and the comprehensiveness of His saving work. He ministered to the body by healing the diseases of men. He mingled with the poor and by sharing their poverty has instilled the conviction that poverty might be made a means of good. He ministered to the minds of men by training them to see God their heavenly Father in the world of nature about them as well as in the events of human history. His interest as a teacher did not lie in the facts he used as illustrations, but in the one great truth they illustrated, namely, the fatherly love and care of God.

Then Jesus ministered to the souls of men. He preached the gospel of the kingdom. He persuaded men to accept God as their heavenly fatherly ruler and live in peace with their fellowmen. Finally the gospel story shows the Saviour as a far-seeing leader who had a vision of the world saved from sin and brought back to the knowledge and fellowship of God. Jesus therefore made his call for workers. He saw the harvest great. The need intense. He called for laborers and enjoined them to pray that the Lord of Harvests should send forth laborers into His harvest.

COMMENT

A good New Year's resolution is to read the Daily Public Ledger every evening before retiring. It's not the biggest newspaper but it is the best local home-town paper. Any local news of general importance will be found in its columns.

The Public Ledger donates its space each Friday to the publication of the church announcements. If the publishers of this paper are liberal enough to donate this space, the pastors of the various churches, should be considerate enough to have their notices in this office on time. In the future only such notices as are in this office by noon Friday will be published. This is final. Notices reaching here after Friday noon will be consigned to the waste basket.

The announcement of the Watch Night service at the Third Street M. E. church reminds us of the night at such a service when the boys stopped the town clock and a certain pious old sister prayed for more than an hour waiting for the clock to strike twelve and announce the end of the old year and the birth of the new.

Progressive farmers of the Aberdeen neighborhood are to have a Farmers' Institute in our neighbor town within a few days and some of the leaders in agriculture of the great state of Ohio are to address them. This shows a progressive spirit among our neighboring Ohio farmers and we congratulate them upon their efforts to improve themselves in their life's work.

They told us that Mayville lawyers before other bars are always anxious to get into trial and get their cases finally disposed of but they have certainly been acting altogether different at their home bar for the past two or three terms of Circuit Court. There have been fewer cases tried in the local court during the past two years than in any other court in this section. Many of the cases have been compromised. It is true, but the most of them went over for continuance.

NOT DUE TO SEX ALONE

Mayville Women Have Learned The Cause of Many Mysterious Pains and Aches.

Many women have come to know that sex isn't the reason for all back-aches, dizzy headaches and urinary disorders. Men have these troubles, too, and often they come from kidney weakness. To live simply, eat sparingly, take better care of one's self and to use Doan's Kidney Pills, is bound to help bad kidneys get better. There is no other remedy so well recommended by Mayville people. Ask your neighbor!

Mrs. R. L. Mattingly, 207, West Second street, Mayville, says: "I was in bad condition with my back and kidneys. I couldn't get my proper rest at night owing to the dull misery in my back. I was feeling so miserable I often had to let my housework go undone. I was dizzy by spells and suffered from rheumatic pains. I was so weak I couldn't walk without pushing a wheelbarrow in front of me and my lower limbs were painful. My kidneys were in bad condition owing to their irritation. Another of the family had used Doan's Kidney Pills successfully and I decided to try them. I bought a box for a couple of boxes. After I had used one I was all right. I have since used them regularly and feel fine. Don't let all doctors say they can't cure you. They can't. Doan's Kidney Pills can."

—NY—

New York had the wealthiest Christmas in thirteen years, and the mail order houses report the biggest business of their history. It is figured that \$250,000,000 was spent on holiday buying in this city, nearly twenty per cent. more than last year's expenditure.

—NY—

At last our projected National Theater is to become a reality. Articles of incorporation have been filed for it, by Nicholas Murray Butler of Columbia University, David Belasco, playwright, producer and manager; Otto H. Kahn, Loeb & Co., Leo Shubert, Augustus Thomas, and Whitney Warren, the architect. In addition to the incorporators, who are also directors, there are named thirty-four others prominent in theatrical and educational lines. One of the objects of the theater will be to encourage the amateurs throughout the country and co-ordinate these dramatic clubs. These, it is said, will have the use of one or two Broadway successes in a season so that these plays may be seen in smaller cities without having to wait years for them or until they are put in the movies.

MOUNTAIN TRAGEDY.

Marshfield, Ore., Dec. 20.—A mystery of the remote Kitchen Mountain region came to light today when the body of Mrs. L. A. Ferrie, rancher's wife, was found in her home. She had

been strangled to death.

The husband and Jim Culver, a neighbor, both were said to be missing. Wire communications are very poor, but authorities are making every effort to learn additional details.

Elkton.—Clary Beal, 18, was instantly killed by the accidental discharge of his gun while hunting near here. The gun was discharged as he attempted to climb a fence.

BREWERY CASES ARE PASSED TO JANUARY 5

Cases Against Kemp Ball and Others Called in Lexington Friday Are Continued Until Next Friday.

Lexington, Ky., Dec. 29.—Preliminary trial of T. K. Ball, George H. Shely, William Keith, Sterling Johnson and two negroes, Josh Allen and Josh Miles, arrested on charges of violating the prohibition law following the seizure Wednesday of a brewing plant and several hundred bottles of alleged beer on South Limestone street, was continued, when called by Commissioner Ward this morning, until January 5th on account of the illness of B. F. Unthank, one of the raiding officers.

Samples of the "home brew" seized in the room where the plant was located were analyzed at the Experiment Station and showed an alcoholic content of from 3.50 to 3.80 per cent, federal authorities said today. Samples of a bottled beverage seized in a room over the rear of the Lexington Garage, which the proprietor said had been leased to William Keith for a storage room, showed only .59 to .63 per cent alcohol, officers said. This is .09 to .13 per cent above the legal limit of one-half of one per cent.
